MEMORANDUM OF UNDERSTANDING (MOU)

BETWEEN

VIRGINIA POLYTECHNIC INSTITUTE AND STATE UNIVERSITY
(Virginia Tech)
BLACKSBURG, VIRGINIA, USA

AND

AGENCY FOR DEFENSE DEVELOPMENT
DAEJEON, SOUTH KOREA

The Agency for Defense Development of South Korea (ADD) and Virginia Polytechnic Institute and State University (Virginia Tech) agree to implement this Memorandum of Understanding.

This agreement is based on the principle of reciprocity and expresses the interest of both parties in exchanging scholars, students, academic information and materials in the belief that the research and educational process at both the institutions will be enhanced and that mutual understanding between their respective scholars and students will be increased by the establishment of such exchange programs.

1. The parties agree to encourage the development of the following exchange programs based on their respective academic and educational needs:

   - Exchange of employees
   - Exchange of academic information and materials
   - Exchange of periodicals and other publications
   - Organization of joint research programs
   - Organization of joint conferences
   - Organization of other academic exchanges agreeable to both entities

2. The parties recognize that the implementation of any exchange program will depend upon the academic interests and expertise of individual faculty members and upon the availability of financial resources. Accordingly, the implementation of any activities as detailed in Section 1 above shall be separately negotiated by both universities and set forth in a separate written document.

3. This agreement is not intended to be a legally binding document. It is meant to describe the nature and to suggest the guidelines of the cooperation described above. Nothing therefore
shall diminish the full autonomy of either institution, nor will any constraints be imposed by
either upon the other in carrying out the agreement.

4. The parties anticipate collaboration on fundamental research and educational activities during
the term of this agreement. While ADD and Virginia Tech only contemplate engaging in
fundamental research, as ADD is a foreign military defense organization, Virginia Tech will be
required to seek a Technical Assistance Agreement (TAA) from the United States
Department of State to authorize defense services (22 CFR 120.9). This Memorandum of
Understanding shall become effective only after the TAA is approved by the United States
Department of State, Virginia Tech, and the Agency for Defense Development of South
Korea, and after other parties specified in the TAA have signed the TAA. Upon completion of
the TAA process, this Memorandum of Understanding will be in force for a period of 5 years,
and is subject to revision or modification by mutual written agreement. It is also understood
that either institution may terminate the agreement at any time, although is assumed that
such action would only be taken after mutual consultation in order to avoid any possible
inconvenience to the other institution.

5. For Virginia Tech, Dr. Seongim Choi, and for ADD, Mr. Cheol Kyu Lee, shall serve as liaison
officers for this agreement.

Charles W. Steger
