That financial and/or funding considerations shall become the subject of specific discussion and agreement within the framework of a separate Implementing Agreement negotiated at the College/Departmental level. No financial commitment whatever on the part of either signatory to this general document is intended or implied.

6. That specific projects to which this MOU may lead will be subject to joint and periodic evaluations by appropriate authorities within the respective universities.

7. That this MOU will be in effect for a period of five years and is subject to revision or modification by mutual agreement. It is also understood that either institution may terminate the agreement upon one year’s notice. It is assumed that such action would be taken only after mutual consultation in order to minimize potential inconvenience to the other party to the agreement.

Rather, they are meant to describe the nature and cooperative intentions of those institutions involved, and to suggest guidelines for cooperation.
