   - Exchange of faculty
   - Exchange of students (undergraduate and/or graduate)

   - Organization of other academic exchanges agreeable to both universities
2. The parties recognize that the implementation of any exchange program will depend upon the academic interests and expertise of individual faculty members and upon the availability of financial resources. Accordingly, the implementation of each exchange program based on this agreement shall be separately negotiated and determined by both universities.

3. This agreement is not intended to be a legally binding document. It is meant to describe the nature and to suggest the guidelines of the cooperation described above. Nothing therefore shall diminish the full autonomy of either institution, nor will any constraints be imposed by either upon the other in carrying out the agreement.

4. The agreement shall become effective on the day representatives of both universities affix their signatures and seals, will be in force for a period of five years, and is subject to revision or modification by mutual written agreement. It is also understood that either institution may terminate the agreement at any time, although it is assumed that such action would only be taken after mutual consultation in order to avoid any possible inconvenience to the other institution.

5. The development and implementation of specific forms of co-operation based on this agreement, will be separately established upon between Parties and outlined in executive protocols, specifying the nature of joint activities, financial and other arrangements. Any student mobility will require an additional protocol between Parties.

6. Scholars sent by one University to the other must have both medical and accident insurance. This may be provided either by their home institution, according to its own regulations, or it may be directly set up by the interested person, through the stipulation of a policy with an insurance agency guaranteeing the above mentioned risks.

7. Virginia Tech is accredited by the Southern Association of Colleges and Schools’ Commission on Colleges to award bachelor, master and doctoral degrees. Sapienza University is not accredited by the Commission on Colleges and the accreditation of Virginia Tech does not extend to or include Sapienza University or its students. This decision is made by the institution subsequently considering the possibility of accepting such credits.
